

# The Mission Moves Through Us

Every Faith In Practice volunteer is part of something bigger. When you serve in Guatemala, the mission moves through your hands, your heart, and the community you invite to serve alongside you.

The estimated cost to support each volunteer is approximately \$3,710. Faith In Practice continues to absorb significant costs associated with making each mission possible. Share The Mission helps provide the resources that sustain the work, including medicines and medical supplies, patient transportation and housing, follow-up care, mobility support, and other mission needs.

Your individual Share The Mission fundraising goal is \$2,500, while each team works toward a \$40,000 team goal. Share The Mission is more than fundraising. It is an invitation. Every time you share your page, tell your story, or invite someone to give, you are giving others an opportunity to become part of the mission.
